

Scotland's Geodiversity Charter 2017-2022

East Dunbartonshire Council supports the vision of Scotland's Geodiversity Charter: that Scotland's geodiversity is recognised as an integral and vital part of our environment, economy, heritage and future sustainable development, to be managed appropriately and safeguarded for this and future generations.

We commit to maintain, promote and enhance geodiversity as an integral part of our natural heritage, recognising its contribution to:

- Scotland's remarkable geoheritage
- historical and cultural development, intellectual growth and creative expression
- sustainable economic development and essential benefits for society
- informing nature-based solutions for adaptation to changes in climate and sea-level
- supporting biodiversity
- public health, quality of life, national well-being and reconnecting people with nature.
